

Please find enclosed pictures of the stacked creosote treated railroad ties in Vulcan, Missouri (Iron County). It is directly across from the US Post Office. These creosote treated railroad ties are being stored for days, weeks, months, waited to be shipped on the railroad cars. You can not keep the creosote treated ties on the yard at Reynolds, Missouri (Reynolds County), so you haul them to Vulcan where there are no covered sheds with concrete and EPA won't know the difference. The creosote drips out of the ties when the sun hits them, gets on the ground and the rainwater and groundwater carry off the toxic creosote compounds to Big Creek, right next door to the Vulcan property.

You will notice that the property at Vulcan, Missouri (Iron County) is in the name of Scott Tie Co., Inc. Mr. Junior Flowers of PO Box 775, Ellington, Missouri, chose that corporation, because it holds no assets except the yard at Vulcan, Mo and the old creosote treating plant at Ellington, Mo. Mr. Flowers is the sole director and officer of Scott Tie Co., Inc., that owns the land at Vulcan, Mo.

The creosote treated ties are treated by Missouri Tie and Timber, Inc. They are sold by Missouri Tie, Inc. and Scott Tie Co., Inc. owns the Nasty, creosote infested yard at Vulcan, Mo.

As you can see, the land at Vulcan, Mo belongs to Scott Tie Co., Inc. There is a general storm water permit in the name of Missouri Tie and Timber, Inc. Can you please tell us why the permit is in the name of Missouri Tie and Timber, Inc. And why don't they have to have a site specific permit with all of that creosote on the ground and washing off?

RCRA RECORDS

We are so sick and tired of the smell and obvious creosote being dripped on the ground and draining into the ground and into Big Creek. WE HAVE CONTACTED the Missouri Department of Natural Resources at Poplar Bluff, Missouri. WHAT A JOKE! You know what MDNR officials told Mr. Flowers? Spread some of that dark colored chat from Iron Mountain, Missouri and keep the yard graded and stirred up so the neighbors can't see the creosote on the yard. IS THAT WHAT EPA THINKS? WE HOPE NOT!!! You (EPA) need to conduct your own investigation and come down here and take some Soil samples on the property and you will see what we are talking about. Mr. Junior Flowers enjoys a real cozy relationship with the MDNR officials.

Please take us seriously and help us in our efforts to keep our neighborhood clean and free from all of the toxic creosote compounds that we are be exposed and subjected to.

Thank You in advance for all of your help and efforts.

The community at Vulcan.

This entity holds the property where a creosote wood treating plant called, Scott Tie Co., Inc. used to be. Treating plant was torn down. This location is South of Ellington, Missouri.

The reason that the property at Vulcan, Missouri is in the name of Scott Tie Co., Inc. is because Scott Tie Co., Inc. has no assets except the properties at Ellington, Missouri and Vulcan, Missouri, which are liabilities, not assets.
